# Commission on Improving the Status of Children in Indiana

---

## **Committee: Data Sharing and Mapping**

**Date:** October, 15, 2019

**Summary of Recent Progress:** The Data Sharing and Mapping Committee has completed gathering the substantive updates from the agencies for the anticipate ISG 2.0 update. This new version is adding Foster Parents as a separate record requestor as well as separating out mental health and addiction treatment records from general healthcare records.

In our Committee meeting, we showcased a data display regarding Medicaid outcomes for high school populations 1, 3, and 5 years post graduation/exit from high school. We presented this to Education Outcomes Task Force co-chairs to identify possible uses/next steps for the dashboard.

Discussed the CISC Strategic Priorities and came up with some recommendations to create quantitative, metric-based goals that we could aim for and track progress towards.

## **Anticipated Date for Presenting Completed Deliverables or Recommendations to the**

**Commission:** Anticipate being able to share updated ISG 2.0 by December Commission meeting.

The Medicaid outcomes of high school students dashboard can be available for presentation by the December Commission meeting.
